

Covid Management Update

27.01.2022

29er & 420 Auckland Champs 2022

We are aware that a number of the sailors entered into the 29er & 420 Auckland Champs at MBSC this weekend attended Soundsplash. In line with Ministry of Health advice, festival goers are asked to self-monitor for Covid symptoms for 10 days. Anyone who was at the festival over those two days, during that time period, is urged to get a Covid test if symptoms develop and to not come down to MBSC until a negative result is returned.

This is a timely reminder that any sailor or parent who is feeling unwell should stay at home until well and that anyone who develops flu-like symptoms should get a Covid test and wait for a negative result before returning to the club. Please also remember that facemasks inside MBSC club buildings are mandatory and strongly recommended outside, especially when in rigging areas.

We will continue to monitor Ministry of Health advice and review our Covid management plan as the situation changes.
